

I've been listening to K-Love for over a year. My 9 year old daughter loves listening to K-Love. This program is so refreshing and provides a positive message to my daughter at such an influential period in her life. The other kinds of music often played on the radio are often times not appropriate for children to listen to and K-Love provides an alternative for parents to turn up the music and sing along with their children and not have to turn the radio off in certain parts or tell your children "that part of the song is inappropriate for you."

While you are considering other options to the FM stations, please do not consider replacing K-Love. I'm so proud of that station and I often encourage other parents to listen to that station as well. It's a great station to listen to in our community and elsewhere.

Thank you for your time and consideration.

Sincerely,

Mrs. Kimberly Moore
